ERNEST KARLSEN
PRIMARY EXAMINER

The following is an Examiner's Statement of Reasons for Allowance: No reference was found which anticipates any of the claims under any section of 35 U.S.C. 102. No reference or references were found for which motivational reasons exist for obviousness or obvious combination to make any of the claims unpatentable under 35 U.S.C. 103. In particular a probe apparatus including a probe element having an outer layer or sheath of hard dielectric material surrounding a needle or inner layer in the shape of a needle which can contact a semiconductor integrated circuit or be withdrawn so that the layer or sheath of hard dielectric material may be used to break oxide layers was not found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Ernest F. Karlsen at telephone number 703-305-4768.
